

GROUNDS SERVICES

for block
management
and
commercial
sectors

HGM Services is a company specialising in the servicing and maintenance of communal gardens and grounds for the property management industry.

Experienced time-served gardeners and horticulturalists are the backbone of our business. We offer a quality service through our know-how, dedication and passion. We're not just about grass cutting, we care about what we do – we prune and transplant at the right time to encourage flower growth, and all our processes are friendly to the environment.

From single apartment blocks to converted stately homes, from block paving to driveways lined with lime trees, no matter what the situation, we find gardening is a science, and a science we're good at!

The way we work has developed specifically to meet your needs as a manager. Every site is unique, and that's why we construct a bespoke package for each one to suit your budget. By working in this way you get the best possible service and value for money.

“*HGM's passion for all things green are emphasised in every one of their gardens*”

Gwyneth Mattison,
Landscape Architect

The proof is in the picture...

... as technology has advanced, so have we. Regardless of the value of your contract, digital photographs are taken before and after we perform our magic.

Each of our vehicles is equipped with the latest digital cameras and laptops so our team can send you a photographic and written report instantly, whilst they are on-site.

The pictures are dated and archived for your reference, and we can extend this facility to take shots of specific areas for you.

With this unique service, the proof is in the picture, and you will have a greater sense of assurance and commercial accountability through our easy-to-follow IT back-up.

HGM is your virtual block manager – your on-site eyes and ears.

We look after properties including classical and period homes, ultra-modern office buildings and contemporary residential developments.

HGM Services operates in the north of England in an area extending from Hexam in the north as far south as Derbyshire, from the North Yorkshire coast to Lancashire

Our job is to take responsibility for the upkeep of your grounds and gardens. From small developments to huge estates, we care about first impressions, no matter what the size.

“What a fantastic service! Their work is of a very high standard, and the photographs they send reinforce my complete confidence in HGM”

Wensleydale
Property
Company

Our commercial division takes care of car parks, verges, and litter control.

We make the first impression for your commercial outlet count! Whether it be office buildings or a supermarket car park. As we say: “Nice and safe, neat and tidy”, that’s what we do.

We have a pro-active approach with the tenant and leasehold client, with the aim to keep them happy with every aspect of our service. Customer relations are an important part of today’s commercial world, and to this end we offer a perfect “joint effort” solution as part of our commitment to you.

- Site visit reports with digital images emailed to you
- Weekly, fortnightly and monthly contracts available
- Bespoke packages
- Discounts for multiple sites
- Risk assessments carried out
- Health and Safety issues addressed as a priority
- Highest possible standards of customer service
- Uniformed staff

From the outside in.

It doesn't just stop at grounds and garden maintenance. Our sister company CT Systems, offers a quality contract cleaning service.

CT Systems employs only experienced staff and trains them to exacting high standards.

Using only quality branded products, CT cleaners will spot the dirt others miss and clean your property so thoroughly that it sparkles.
